

JETTING JETAIR 141000

Super-silent, compact, and effective asymmetrical screw-type compressor with aftercooler, optimized for professional fiber blowing. The Jetair 141000 is powered by a 2-cylinder, 23 HP Vanguard Briggs & Stratton petrol engine with an electric start. The compressor supplies 1.0 m³/min at 14 bar. Its compact design makes it lightweight (only 160 kg), ensuring a highly flexible and mobile compressor.

JETAIR 141000

- Compact design
- Sound power level 93 dB(A) *European sound power directive 2000/14 EU*
